

15. Assembly Conveyor and Presser

1) Description

Assembly Conveyor and Presser have been designed specifically to upgrade manual assembling process to more efficient and quality controlled process.

Assembly Conveyor and Presser produce average 2.5 times of throughput than manual operations.

Assembly Conveyor and Presser reduce costs, increase profitability and reliability, decrease the defect rate and pay for itself very quickly.

2) Specification

2-1) Assembly Presser

- * Speed : 120 units/minute
- * Size : 890(L)x440(W)x610(h) mm
- * Weight : 60 kg
- * Current : 0.2 KVA, 2 A
- * Power : 110 or 230 Volt, 50 or 60 Hz
- * Model : ACP-100 (ex. NDP-400)

2-2) Assembly Conveyor

- * Speed : 10 m/minute
- * Size : 2500(L)x920(W)x715(h) mm
- * Power : 110 or 230 Volt, 50 or 60 Hz
- * Model : ACC-100 (ex. NDC-500)
