

## 9. Sheet Slitter : RSI-400 (ex. NSS-400)

### 1) Description

Sheet Slitter is a high speed precision cutting machine which is designed to cut a wide range of pads such as, sample pads, absorbent and conjugate pads in sheet form. Blade modules are easily interchangeable when need to slit sheets in different width.

### 2) Characteristics

- 2-1) Accurate and high-throughput with solid construction
- 2-2) The blade head can be easily changed according to the desired size.  
(For example : 5mm, 20mm, 30mm etc)
- 2-3) Eliminate contamination of materials
- 2-4) Cut edges are very clear
- 2-5) Low maintenance and simple operating procedure

### 3) Specification

3-1) Capacity : 360 sheets/hour based on the 10 second interval feeding

3-2) Width of Sheet : Max. 310 mm

3-3) Length of Sheet : Max. 310 mm

3-4) Size : 490(L)×514(W)×258(H) mm

3-5) Weight : 51 kg

3-6) Power : 110 Volt or 230 Volt, 50 Hz or 60 Hz
